

ImProving Herds Field Day

at **Hamilton's Run, OB Flat Mt Gambier SA**

- Do you want to know more about Genomics and how it can work for your business?
- Are you keen to see real life examples of genomic testing from an SA dairyfarmer?
- Do want a greater understanding of why genetics is important, ABV's, the different indexes and how they can be used for your herd?

Take this opportunity to hear from a range of speakers on how ImProving Herds can contribute to your bottom line, including:

- Graeme & Michele Hamilton - ImProving Herds results from a real life setting
- Shane Gardiner – Lorebeck's – breeding strategies and utilising genomic testing
- Pete Williams - DataGene - explaining figures on the value of genomic testing heifers. Proven. Quantified.
