Your Herd’s Genetic Snapshot

The bulls you selected over the last 10 years produced Holstein cows with genetic trends that have:

- Profit: Increased
- Production: Increased
- Overall Type: Increased
- Longevity: Increased
- Fertility: Increased
- Mastitis Resistance: Increased

Do you want to improve your herd’s genetic performance for one or more of these traits?

Use the Good Bulls Guide to choose bulls that perform well in your highest breeding priority areas.

GBG 100% of the cows born in 2014 were bred from the Good Bulls Guide or by Progeny Test.

Genetic Progress for Balanced Performance Index

The Balanced Performance Index (BPI) reflects the economic drivers of net profitability for the range of dairy farming systems in Australia. Traits include production, survival, type, mammary, milking speed, temperament, cell count, fertility and feed efficiency.

Number of Cows (current and sold/culled)
